**Peak performance** is about finding your optimal performance mode and holding on to it. Many people talk about 'being in the zone' or 'being in their element', but few understand why this happens and how to find this when you need it most. This element of the course trains you to understand the key factors that produce peak performance so that you can find it when you need to. These factors range from biological clocks, environmental dynamics, goals-focus, physio-spiritual balance, diet, positive self-talk and other motivational drivers.

In this motivational lecture, **two leading British trainers - Nabeel Al-Azami and Junaid Ahmed** combine their Islamic research with their extensive professional management experience in the UK and made an inspiring presentation in Jeddah to more than 120 corporate professionals.
